Manuals

[Go to "All Manual"](#)

What's New

- Added new Option 3 in section [013] - When set to 0, the door will not relock on access granted if it's in unlock schedule
- Added new Option 2 in section [013] - Can set the PGM to toggle state instead of time activation when follow the access granted event or the utility key
- Fixes an issue where the LED lights were inconsistent
- Fixes an issue where on an upgrade from version prior to 4.50, the reader was unstable until a reset

V4.66.003(released on December 17, 2018)
